

## 9<sup>th</sup> World Peace Week organized by RadioCico Switzerland September 18<sup>th</sup> to 21<sup>st</sup> 2023

### In brief

In the past two years, during the World Peace Weeks, we discussed «Mutual Acceptance» and «MitEinAnder – With One Another» and how important it is to accept oneself together with one's strengths and weaknesses and thus walk along the path together.

After these important issues, we are now ready to take the next step of this journey under the theme of **«solidarity»**. A topic that is becoming increasingly important these days.

### Objective

During this week we invite a wide variety of people and show in interviews with them what is or can be possible when people with different, unique and fascinating views and abilities approach their fellow human beings in solidarity. This should be a source of inspiration for all listeners.

Each one is special, unique and fantastic. Appearance, interests, sexuality, gender, origin: In the end, we are all members of the human family and must ask ourselves how we, with all the differences, can live together peacefully, support each other in solidarity and create a constructive life for everyone.

This is exactly our goal!

### Realization

**From september 18<sup>th</sup> to 21<sup>st</sup> 2023**, we will set up the mobile RadioChico Studio in the «Berner Generationenhaus» near Berne central station and broadcast LIVE from the capital city. An important part of this World Peace Week is to show how **«solidarity»** can look like. Showing and also demonstrating how, to what extent and why everyone is special as an individual and why exactly these unique features can serve and help everyone is an essential goal of the project. In addition, we plan to not simply depict, but to set examples wherever applicable.

The studio will be open to the public daily during broadcast hours. The interviews can be followed on site. You can also deliver your own statement in front of the microphone and provide your view of how **«solidarity»** can succeed.

In order to make the radio experience as interesting as possible for everyone, live interviews on the topic of solidarity take place every half hour and every hour throughout the week. All interviews are posted on RadioChico's website as podcasts and can be listened to at any time.

**From september 18<sup>th</sup> to 21<sup>st</sup> 2023 LIVE from the «Berner Generationenhaus» in Berne (Bahnhofplatz 2, near Berne central station)**

**On Sunday, September 24:**

**Review of the World Peace Week in the auditorium of the «Kirchenfeldschulhaus», (Kirchenfeldstrasse 3) in Lyss.**
